Few expected my office furniture to arrive by fast freight. Robert travels by train to a different resort every winter. Kevin just invited relatives to view a villa in the valley. Georgia gave all girls huge books on algebra and geography. The citizens tried to attract tourists to this little town. Phoebe had boiled the beets for her brother in a blue bowl. Jockeys were justified in objecting to jumping in the haze. Julius urged us to study the rulings issued by our umpires. Mark may spend more than a month moving into a summer home. The pharmacist hired a shipping clerk to help him at night. Harry may hurry today to fix the pulley for an oxygen tank. Ann handed her aunt a quantity of honey instead of bonbons.
